

# APOLLO DIVERSIFIED MULTI STRATEGY PORTFOLIO

## PORTFOLIO OBJECTIVE AND INVESTMENT POLICY

APRIL 2025

The Apollo Diversified Multi Strategy Portfolio aims to blend a diversified selection of strategies together in a single portfolio. The portfolio will invest in strategies that historically have shown a low correlation to equity and bond markets. The portfolio will aim for annualised returns in excess of Cash + 3% over the medium to long term. To achieve this enhanced return, the portfolio will invest in asset classes which may introduce fluctuations in capital value over the short term, and positive returns are not guaranteed.
